

BACKBONE BONE DRY GIN

At Backbone Bourbon Company, we are huge fans of the gin category and couldn't imagine our company without at least one gin. We love the way gin as a clear spirit can have complexity and nuance. We are also fans of a traditional style gin. To this end, we sought to develop the "driest" but also the most satisfying gin possible.

Bone Dry gin makes a great martini (even with a little vermouth added, we don't mind!). It's also a great companion to a little tonic and ice that makes a refreshing drink in the warmer, summer months. Please give it a try!

INGREDIENTS: The base spirit is made from wheat. Bone Dry is made with the following botanicals: Juniper berries, Smoked black tea (Lapsang Souchong), Black Pepper, Assam Tea, Coriander, Chamomile, Grains of Paradise, Lemon zest, Lime zest, Cassia, Lemongrass and Rosemary

Approximately 2/3 of the botanicals are juniper berries which comes from Bulgaria.

DISTILLATION STATE & CITY: Los Angeles, CA

PROOF: 92

CURRENT BATCH#: N/a

CASES PRODUCED: 764 (last run)

TASTING NOTES: The nose provides fresh aromas of pine trees in the Spring. Upfront is a great, slightly oily texture. Mid-palate provides just a hint of peppermint candy and some base citrus notes that add a refreshing quality. Dry but lingering finish.
